

I was stationed at Ubon RTAFB, Thailand from November 1968 to November 1969. My duty assignment was Non Commissioned Officer in charge of the Base Tool Issue Center with the responsibility to issue all small hand tools to the maintenance personnel that were authorized them. At one time, during my one(1) year tour of duty at Ubon, the maintenance officer of the 16th Special Operations Squadron, an Air Force Captain, came to my office and made a verbal request to be issued a special saw. He said that it was to be used to saw a material for insulation to be placed on a C-123 aircraft that was going to carry something to defoliate the jungle in Viet Nam. This is the 20th Day of June 2006.
