telephone	Remarks
	TDY 3 Mos to NKP, 809th Engineers, B Co. 1969, assigned to C Co , Camp Raum Chit Chai, 809th Engineers, Heavy Wheeled tractor operator, scraper unit, heavy equipment platoon. 1968-69. Helped build route 22 & 223 from Sakhon Nakon to the Me kong River in NKP
850-818-0256	

telephone	Remarks
	Msgt. Buddy Essinger was the Flt. Chief
	4 valve bypass, 7 heart attacks, 5 stents, a balloon, pacemaker/defibrillator, and heart only working at 17% along with congested heart failure
503-332-9019	Since I wasn't a perimeter guard denied. Pretty much gave up.

telephone	Remarks
	Not Filed.
831-920-7175	I am hoping that someone will remember me and be willing to write a letter that will help prove to the VA that I was there in Jan 1965. I was TDY from the 466L Program Office and conducted an assessment of the Ramasun sites' suitability for an AN/FLR-9(V). Needless to say it was quite suitable and was later procured by USASA and became a critical asset.supporting all of our efforts.

telephone	Remarks
301-643-2440	<p>Question - has anyone run up against data submit deadline and tried to get extension? My claim was put back into "Gathering of Evidence" stage about 3 weeks ago. No request of data from me or anyone according to my E-Benefit page. Previously I had a note on what they wanted and a letter received in mail with more detail. Anyway, I called the VA directly today and asked status. Rep said that they had sent me a letter 3 weeks ago with request details. Response due in 2 d...ays (27th). I asked for extension so I could put response together but request still sketchy even from her reading it to me. And she was unable to resend. She said she was putting a note in my claim file asking for extension until 5/20 but no guarantees. Now my immediate thought is to submit the VA Form 21-4138 and give a few data points that will be a bit vague to meet the deadline and generate another request back to me to buy time. I'm heading out of home area during weekend for a little traveling and to attend the 48th Jolly Green Assoc Reunion in Ft Walton Beach. Reasonable approach?</p>
	<p>As a mechanic his duties placed him on the flight line along the perimeter. We have provided pictures showing the close proximity of his work areas to the perimeter. We have submitted buddy statements verifying my husband being on and near the perimeter on a daily basis. We have provided everything the VA has asked for yet it's never enough. We need a copy of the job description to prove what he did and the areas where he worked. I just don't know where to find this. I was told to google it, but that wasn't successful. If anyone has any suggestions I would certainly appreciate it.</p>

telephone	Remarks
724-208-3133 Cell	I have been approved for 10% disability for tinnitus on 09 2015, 0% for hearing loss & denied twice for diabetes mellitus type 2. I am getting ready for round 3. I have now turned my claim over to a law firm in Michigan. They represent Veterans with disability claims as their primary function. The name of the firm is "Legal Help for Veterans, PLLC."
	The VA has our medical and personnel records and all that is in those records. I sent photos, my MATS tickets, Supervisors Ratings, etc. and have not heard back from them yet. My claim is only seven months old. I think it is ludicrous what our Vets are going through to get some sort of help from the VA and hope that our newly appointed Head will get things organized. I am going to a VA Clinic and these folks are trying to help but are over worked and under staffed in certain areas. I'll probably be long gone by the time my claim gets finalized but do hope things get better

telephone	Remarks
	I need the dates for an "incursion" that happened at Udorn in, I believe, the summer of '68. No Americans killed but a couple of local nationals were. I have the wire copy that was sent out, but it's lost in the "swamp" of paper in my home office! I was initially assigned to the Congressionals Section of USARSUPTHAI HQ, but after three months I was transferred to the new HQ Special Troops Korat Detachment in the S-1 Section. About the only "Unit" I was assigned to was the 256th Admin Company and that was only a couple of months. Technically I was HHD Special Troops, Korat Detachment.
760-241-5712 760-963-0863	Looking for any weasels keepers who was there during that time or any other time frame I'll get a e-mail off to you soon
478-777-3818	Mary Louise Crocker is trying to get compensated for DIC. Mary's phone number is 478 - 777 3818.

telephone	Remarks

telephone	Remarks
	<p>I am looking for anyone who knew me in 1968 from getting night wrecker service. I cant prove I drove my wrecker</p>
478-997-9611	<p>Although I don't have any presumptive conditions, someone may recognize my name and I may able provide a buddy letter. Two of my co-workers that were stationed with me in Bangkok have Type II Diabetes and I have provided them buddy letters. I don't believe they filed for compensation. 4. Radiculopathy with sciatic nerve involvement left and right lower extremities (hips), 20% each</p> <p>5. Degenerative joint disease, right shoulder status post, right shoulder rotator cuff, secondary to left shoulder 30% 6. Sinusitis, 30%.7. Degenerative joint disease, left shoulder status post, left shoulder rotator cuff, 20%</p> <p>8. Right knee patellofemoral pain syndrome, with arthritis, 20%</p> <p>9. Left foot, hallux valgus (bunions), 10%, Right foot, hallux valgus (bunions), 10%</p> <p>10. Left knee patellofemoral pain syndrome with arthritis, 10%</p>
	<p>Died 2013 from his 2nd heart attack before he could get open heart surgery.</p>

telephone	Remarks
	Have had palpitations, PVC sand PACs since returning from UT, Open heart bypass to survive "the widow-maker" in 2005. I still have palpitations and IHD that the VA refuses to recognize.
	my lawyer is fighting them for Type II diabetes, Neuropathy, COPD/Asthma, I have End of life Lung disease,

telephone	Remarks
309-496-1313	

telephone	Remarks
630-378-0040	Claim currently being handled by a law firm.
	Spent a lot of time working in the roundhouse in the center and around antenna field. I was one of the few people that did not leave until the very end of the close down. I can't find any verification of AO use around the antenna field, but noticed not much vegetation would grow there. I am being treated by the VA for type 2 Diabetes, Neuropathy, and high blood pressure. I have never applied for any compesation because I can't prove it AO was used there.

	<p>Cancer was found in John in 2001. His urologist told him it was the same types (he had two types) that the guys who served in VN have been dealing with. It seems to be under control right now. But it has been an up and down battle.</p> <p>That is why we have filed this claim. We have been fighting denials since 2010.</p>

telephone	Remarks
	<p>I was from connecticut when I enlisted I was in the 4101st SAC at takhli 72-73 And at Utapo 73 i the 307 th SAC.i have CAD ,heart diease,PTSD,and granted 10 percent agent orange for Corinary arterie diease from Takhl and have. A 70 disability with 30 un employability also had a aortia heart valve replaced with a cow valve three years ago due to agent orange as stated by my VA Cardiologist more likely than not due to expousre.got approved for agent orange October 2015 for CAD that I filed in 2005 got no money as I was already at 100 percent and had filed in 1975 and 1982 1984 1989 2005. Got denied in 1978 for not showing up in annarbor Michigan to a hearing as I did not want to violate NSA papers I signed as I was on secret mission to Thailand and not allowed to talk about it or face Leavenworth prison time so I did not go to the VA to talk an was denied even though diagnosed withe berries ephogitus at the VA hospital that day in 1976 I now get 20 percent for that but never any back pay .my. Son got approved for helpless child in2007 when he was 23 i filed paperwork with the VA when he was 14,we lost or home and are soon to be homeless again .as we have no means to move and the house we rent from a church in some sort of VA program is to be sold.we are lucky to have \$ 40 .00 at the end of the month before the next disability check arrives.i have my son daughter grand so n and wife to take care of my other two sons live with my mom 1200 miles away.one had a heart attack last sept.the other has emotional problems all due to agent orange .hope this helps also my daughter had her thyroid removed when she was 23,that also can be attributed to agent orange</p>
	<p>Deceased 11/10/2015</p>

telephone	Remarks
	I received my approval for my AO Claim from the VA last week. I was a K-9 Handler at Korat 69-70. The other day i received my new retirement statement from DFAS. The VA deducted my compensation from my retired USAF check. They will cut me a seperate check for the same amount. It appears all I get is a \$55 tax credit. May be wrong, will see on the 1 July

telephone	Remarks
	<p>To research a story on perimeter guards, I was imbedded with the security detail on the runway (I can send you a copy of my article if you give me your snail mail address). Agent Orange was used to spray vegetation along the base fence line to give the guards improved visibility of the perimeter, and I believe I was exposed to the toxic herbicide as a result of that assignment</p>
517-914-1197	
	<p>He is filing a claim for benefits with the VA and has received two denials in a 13-year period. He needs buddy statements confirming that men were augmented to serve guard duty in the 432nd SPS in the towers on the perimeter of the base (which he served for about 45 days) and also to corroborate his claim that the jet mechanics on the RF4C revetments were on the perimeter of the base. He was diagnosed with Diabetes Mellitus II in 1976 and is on the border of being legally blind from Diabetic Retinopathy plus other issues as a result of exposure to herbicides while at Udorn. If anyone will help, he will be very appreciative. He really needs those buddy statements to prove his exposure.</p>

	U-Tapao Sep 71 to Sep 72. Aerial Port Sqdn. Looking for anyone from unit or U-T in general
216-429-0463	
	Filed a claim 22 Nov 2013 -have been shuffled among 4 VSO's. Filed 01/9/2017. Reverts to new claim. Seeking an attorney to fight for back pay. Still waiting to hear from VA.

telephone	Remarks
	Waiting for BVA hearing.
	I performed 635 SPS "auggie doggie" duties along the base perimeter fence line periodically during my tenure at U-T. When I retired from the USAF on 1 July 1987, I processed my VA C&P FDF to the DAV and every time since that time period that I was represented by the DAV, I won my claim each and every time with them. I was rated by the VA for Type II diabetes and eventually prostate cancer, which made me 100% disabled since 2013. I am working with Bill Rhodes on Congressional legislation that is currently in the Veterans Affairs Committee in D.C.
	Looking for anyone who served at Takhli Nov 68 to Nov 69. Need statements about augmentee guard duty, crash recovery, etc.

telephone	Remarks
	<p>In 91 while on active duty I was found to have a bad aortic valve---the Air Force said it wasn't that bad and let it go. I got out in 92', still had the bad valve---had it in my med records at discharge. In 95' I had a myocardial infraction (heart attack) paramedics had to use paddles. Was taken to hospital and was found that the aortic valve had failed. Next morning, open heart surgery to replace it with a St Jude's Valve. Although the VA did cover everything, I was told that AO wasn't a factor. As a matter of fact back then nothing was known too much about AO causing heart problems. I wound up with a 30% comp rate, which I feel today is lacking, because as one gets older the heart and valve do not get younger.....</p>

	Would like to know if anyone knows if any benefits for herbicide exposure for any one that was in the jungle clearing it for friendship highway has received any rating with the benefits yet? My m.o.s.was 62E 20 heavy equipment operator with "C"company ;538th engineers 1966July -- August 1967. I also went to Korat with the refrigerator truck and trailer to get food for the mess hall on several trips and stayed over night in camp friendship. Been denied on my 3rd appeal now .any new information site suggestions and info appreciated .Our top was Msgt Purdey or Purdy don't remember
	Would like to get in touch with any other munitions load crew that participated in the F-4 turn around mission between Ubon and Bien Hoa, Vietnam. I'm appealing a AO claim decision based on VA'S inability to prove that I was in Vietnam as part of the "turn around" program. Help!
	Notice of Intent Nov 2015, full claim April 2016, Denial 2017, Notice of Disagreement 2017

618-781-4397	Getting things together to file an Agent Orange Claim
701-220-6753	I am currently rated at 60% for Bi-lateral Knee Replacements and Hearing loss. My claim for Agent Orange was denied twice, and upon the advice of my County VSO I engaged a veterans law attorney to take the case to the VBA. The case has been accepted by the VBA and I am awaiting their decision.
	Deceased - 12/17/12, MSgt.,Retired 1990. Awarded after giving evidence of augmentee duty on perimeter. Denied for aircraft mechanic exposure on perimeter.

616-216-8145	First application 2012. 3 denials. Last appeal 2016. I was told I will talk to a judge sometime late 2018. That is 6 years and the VA denials are in direct conflict of exsisting rules and regulations.
	I filed for the first time in 2001 for type 2 diabetes. My A1C runs about 3-4 since I was diagnosed in august 01.I filed claims for tinnitis-nueropathy and a major neck surgery in 2014. all this from a bad fall off of a Knife helo on july 3 1974 when during a heavy monsoon I slipped off the exhaust of our TS56 engine.I worked 7p-7a on nkp and tdy to korat flight lines.when I fell I jammed my lower back somewhat up into my neck. VA says I should have gone to hosp for a checkup but I didnt and now in 2014 I have my first neck/spine operation.on oct 17 I have the second which is lower spine lumbar decompression.I have sent copies of all my medical histories to the VA. make this shorter. I'm denied everytime cause no boots in Nam for PTSD and all my other claims. I use a good VSO but always denials. I have wrote extra papers about 2 of my children having moderate to severe Chrohns disease. my youngest son died from complictions from it causing septic shock death last aug 26 2015.I have proof from an APR that I worked close to north nkp perimeter when we ran up the Bronco tp engines and we were close to the k9 kennels.defoilants were used between april 10 74 and april 10 75.I have done many things to help the claims along but I fear even though its being reviewed the claims will be all denied again. any help is appreciated cause I aint ever giving up..... that others may live... fly on 21ST SOS Knifes
